Kota Tinggi Firefly Park, Malaysia, is the only place in this region where you can witness the sight of millions of fireflies in synchrony, often referred to as the '8th Wonder of The Work'. It is one of the 'must visit' places of interest in Malaysia. You will be taken on a boat ride along the river where the fireflies inhabit around the branches of the 'Berembang' trees along the riverbank. Here, up to thousands of fireflies may group together on a tree, beginning their display about one hour after sunset. A really bright display lasts for about two to three hours, continuing at the lower levels until dawn. You may even mistake the scene as row of Christmas Trees...!
